## **Preface**

Aesthetic Aspiration is my 8<sup>th</sup> book of poetry. Most of the poems are written in blank verse except a few. I like the trend of free verse as I can express myself more comfortably through this free verse. Free verse used in the poetry is free from limitation of regular meter or rhythm and does not rhyme with fixed forms. Such poems without rhythms and rhyme schemes do not follow regular rhyme scheme rules and still provide artistic expression. In this way, a poet can give his own shape to a poem how he desires. But by the mid-twentieth century poetry sounded very much like prose. On the way to this prosaic style, there was a phase in which some poets, including Sylvia Plath and James Dickey, wrote what could only be considered gibberish: nonsensical poetry which couldn't be understood by anyone but the poet.

Emily Dickinson is famous as the mother of American English free verse. Her poems do not have consistent metrical patterns, musical patterns or rhyme. Rather, following the rhythm of a natural speech, it gives an artistic expression to the ideas it contains.

After a long hectic day while relaxing at night, a lot of ideas and thoughts peep in my mind. I just try to reshape them into a poetic form. So, I wish the readers will read my poems and they will get a new form of writing poetry in English.

## **Acknowledgement**

My sincerest gratitude goes to Almighty for His kindness to allow me to write this book of poetry. I just wonder to discover the truth about how a poem can express full and compact thought of life and living and the universe. I could never have done this work of writing a few books of poetry without the faith I have in the Almighty.

It is the great opportunity to thank my wife Prof. Dr. Eaysmin Ara Lekha, who always encourages me in every possible ways to writing. I also thank my two sons Nabid Aziz and Abid Aziz who always feel proud and exciting that their father's book will be in the bookstore imprinted.

## *Every Man Creates their Fate*

Everyone in the world is born with their quality.

Allah bestows His mercy equally as amenities.

Allah has created everything with the great care.

A man is created as the most beautiful creature.

We have to do a lot of things by us every stair.

Among them, some are good and some are dire.

By doing good work, somebody is appreciated.

For the wrongdoing, bad ones are depreciated.

The wrongdoers are always considered as a bad.

Whatever you are must be accountable to God.

Allah knows everything about us and our fate.

So, let's start praying by staying no longer late.

## *The World is for the Brave*

This universe is only for the brave.

No matter what will be in the grave.

The brave one always stays as fair.

They know how to punish the liar.

All invention is made by the brave.

Without brave, none can be great.

'Man will die' is a must as the fate.

Martyrs are ready to die at any date.

Cowards fail to achieve their goal.

They will remain failure as a whole.

So, the brave must win the game.

The cowards will remain the same.

## **Mercy of Almighty**

Keeping faith in God is our main duty.  
God can do everything for our beauty.  
Do something by not being the crafty.  
God must be with you as He is Mercy.  
People will never treat you as a nasty.  
So, do not worry if you fall in danger.  
God will save you from others' anger.  
Whatever you are cannot be the main.  
Fact is how much you use your brain.  
You do win if you use the brain fairly.  
And success will follow your feet truly.  
So, do not be upset by being so worry.  
Allah must fulfill our lives with glory.

## **Life and Destruction**

Any destruction is harmful for the human.  
It always causes a great loss in general.  
We like to remain good with our kinsman;  
Though our life is not clear like crystal.  
All the people are same in the eye of Islam;  
We have to treat everything as equal.  
The man is responsible for their problems.  
We promote humanity by being calm.  
So, keep patience until your work is done;  
Unless you will greatly be undone.  
We have to be skilled to do a thing alone.

## **Man Can Be both Superior and Inferior**

Human life is full of difficulties and errors.  
The face has been considered as the mirror.  
Each bad thing in life is reflected as horror.  
A good thing waits for a while at our door.  
Man has to work hard to become superior.  
Without working hard, we will be inferior.  
A man with bad work is treated as a terror.  
In the society, he is considered as a minor.  
No one respects him as he is a conspirator.  
Besides, a man of good record gets honor.  
Everyone likes to see him as their advisor.  
A country also honors him as a guarantor.  
He can also be a man of a good instructor.  
So, man can be both superior and inferior.

## **Knowledge and Imagination**

Knowledge is abstract but can be seen by work.  
Imagination is the feeling but it cannot be seen.  
People without knowledge are called nonsense.  
But the man without imagination is non-human.  
The knowledge and imagination aren't the same.  
Knowledge may be gained through imagination.  
But imagination is a function of inorganic thing.  
Imagination also helps us to be knowledgeable.  
The animals can, somehow, be a knowledgeable.  
They have that knowledge of leading their lives.  
But they do not know how to imagine about life.  
The man can be differentiated by the imagination.  
So, man and animal are different by imagination.

## **Human are not Equally Knowledgeable**

Knowledge is the heavenly gift by the Almighty.  
It is considered as the personal possession of life.  
None can share their knowledge with the others.  
Knowledge is too complicated thing to transmit.  
It is a function of internal but not external thing.  
Members in the family may not be equally wise.  
One may be more knowledgeable than the other.  
By born, one may be less knowledgeable in life.  
Knowledge may be achieved by different ways.  
One can achieve knowledge through the nature.  
Some can gather it from the school and colleges.  
The workers may gain this through experiences.  
By knowledge, one can reach the top of success.  
One can be failure by not with knowledge fairly.  
So, no one can be equally knowledgeable in life.

Women like to use gold or diamond as ornament.  
It only increases the external beauty of a woman.
